

# Mohamed Amine Fouzai

**Nationality:** Tunisian **Date of birth:** 06/08/1999 **Place of birth:** Nabuel, Tunisia

**Phone:** (+216) 93246619 **Email:** [mohamed.amine.fouzai@gmail.com](mailto:mohamed.amine.fouzai@gmail.com)

**Home:** Tunisia-Nabuel-Hammamet-8056, 8056 Nabuel (Tunisia)

## ABOUT MYSELF

Experienced Solution Developer skilled in designing scalable backend systems using Python, Node.js, and leading web frameworks like Flask, Django, and Express. Strong in data structures, algorithms, and database architecture, with a focus on performance and data integrity. Proficient in API development, third-party integrations, and Git-based collaboration. Known for solving complex problems efficiently and delivering high-quality results in fast-paced, multi-project environments.

## WORK EXPERIENCE

### **Cielo Costa** – Oakham, United Kingdom

**Address:** UK, Ketton Suite, The King Centre, Oakham, Rutland LE15 7WD, Oakham (United Kingdom)

#### **Software developer**

[ 07/2023 – 04/2025 ]

- Design and implement custom software solutions using Microsoft technologies and Azure services.
- Develop business applications using Microsoft Power Platform (Power Apps, Power Automate, Power BI).
- Integrate Azure services such as Azure Functions, Logic Apps, and Azure DevOps for scalable and secure solutions.
- Gather and analyze client requirements to translate them into actionable technical specifications.
- Architect end-to-end solutions aligned with business objectives and user needs.
- Implement CI/CD pipelines using Azure DevOps for automated testing and deployment.
- Ensure solutions meet industry security and compliance standards using Microsoft's security tools.
- Monitor application performance with Azure Monitor and Application Insights, and optimize where needed.
- Collaborate with UX/UI teams to ensure solutions are intuitive and user-friendly.
- Create and maintain technical documentation including architecture diagrams and deployment instructions.

### **ZenFeat** – Heathfield , Canada

**City:** Heathfield | **Country:** Canada

#### **Backend Developer / Data Architect**

[ 04/2023 – 07/2023 ]

I made significant contributions to ZenFeat, a fast-food application, by:

- Designing a strong data model and backend architecture.
- Translating business requirements into a structured model.
- Creating detailed database schemas and implementing data normalization techniques.
- Developing scalable RESTful APIs, integrating third-party services, and utilizing REST, GraphQL, and gRPC for efficient data exchange.

### **TimeLapse Agency** – Sousse, Tunisia

**City:** Sousse | **Country:** Tunisia

#### **Backend Developer / Mobile Developer**

[ 12/2021 – 04/2023 ]

- Oversaw the end-to-end creation of backend systems for web and mobile applications.
- Conducted ongoing research to stay updated with the latest trends in app development.
- Applied a research-driven approach to enhance development strategies and solution design.
- Built efficient, scalable, and modern backend solutions tailored to meet evolving user demands.

- Continuously improved technical expertise by exploring new tools, frameworks, and methodologies.

 **African Business Network** – Sousse, Tunisia

City: Sousse | Country: Tunisia

### Data Administrator

[ 09/2021 – 12/2021 ]

- Structuring databases: Schema design, indexing, and query optimization.
- Implementing data integrity and security measures.
- Utilizing normalization techniques, query rewriting, and indexing strategies.
- Performing regular backups and maintenance tasks to ensure system reliability.

 **Astrolab Agency** – S, Tunisia

City: S | Country: Tunisia

### Full Stack Developer

[ 01/2021 – 08/2021 ]

- Maintained and developed a financial application with a focus on backend development.
- Designed robust databases, APIs, and integrated third-party services.
- Prioritized security and privacy while working closely with designers and stakeholders.

 **Cube IT** – France, 13 Rue de Raidillon, 78230 Le Pecq, Paris, Tunisia

City: France, 13 Rue de Raidillon, 78230 Le Pecq, Paris | Country: Tunisia

### Internship - Backend Developer

[ 01/2020 – 04/2020 ]

Contributed to the development of a robust and scalable backend for managing distributed events, using a combination of programming languages and frameworks to ensure seamless communication and coordination.

 **Tunisie Telecom**

### Internship - Backbone Network Telecommunication / Data Administrator

[ 01/2019 – 04/2019 ]

Oversaw a city district's telecommunications systems, ensuring seamless communication and efficient services for residents and businesses by monitoring and addressing technical issues.

## EDUCATION AND TRAINING

---

### Bachelor in Information Technology / Computer Science (2013 - 2017)

**High School Atef Chayeb Hammamet Nabuel** [ 11/2013 – 07/2017 ]

City: Nabuel | Country: Tunisia | Level in EQF: EQF level 6

### Diploma in Information System Development (DSI) (2018 - 2021)

**Higher Institute of Technological Studies of Nabeul** [ 2018 – 2021 ]

City: Nabuel | Country: Tunisia | Level in EQF: EQF level 7

## LANGUAGE SKILLS

---

**Mother tongue(s):** Arabic

## Other language(s):

### English

LISTENING C1 READING C1 WRITING C1

SPOKEN PRODUCTION C1 SPOKEN INTERACTION C1

### Italian

LISTENING B1 READING B1 WRITING A1

SPOKEN PRODUCTION A1 SPOKEN INTERACTION A1

### French

LISTENING B2 READING B2 WRITING B1

SPOKEN PRODUCTION A2 SPOKEN INTERACTION A2

### Japanese

LISTENING A1 READING A1 WRITING A1

SPOKEN PRODUCTION A1 SPOKEN INTERACTION A1

*Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user*

## SKILLS

---

### Programing Languages

Scala / Haxe / Python / TypeScript / Elixir / Nim / JavaScript / C# / Dart / JAVA / Rust / Kotlin / GO

### Frameworks

MedusaJS / NextJS / React Native / MeteorJS / Flutter / React / Spark / ktor / Actix(RS) / SpringBoot / gRPC/tRpc / GraphQL / Apollo / ExpressJS / NestJS / FastApi / TornadoWeb / DRF / Django / Flask

### DataBases

TimeScale / PostgreSQL / MariaDB / MySQL / MongoDB / Firestore / RethinkDB / Kafka / Azure SQL Database / Redis

### Version Control & Management Apps

BitBucket / ClickUp / Jira / Harvest / Float / Azure Devops / Github / GitLab
